SMART TECHNOLOGY WATER HEATERS

Smart electric water heaters are ideal for the rapid and inexpensive production of medium quantities of water. It provides energy savings through adaptation to customer's habits. Without any effort, users can have the hot water they need, when the need it.

- WI-FI connection for remote control (IOS and Android) - **New feature 2023**
- Stainless steel AISI 316L tank pickled and passivated, (EN 1.4404) welded with "TIG" and "Plasma" technologies for optimum protection from the effects of corrosion
- Incoloy 800 stainless steel heating element
- User-friendly digital interface for temperature display and settings
- SMART mode operating with self-learning habit algorithm which will ensure you have hot water when you need it and save energy when you don't
- External casing made of sheet metal coated with epoxy powder paint
- Low heat loss due to superior thermal insulation
- Vacancy mode and automatic anti-legionella function for total piece of mind
- Environmentally friendly CFC/HCFC free foam to insure excellent heat retention

10 YEARS
WARRANTY

WARRANTY:

- **10 YEARS** ON THE TANK
- **2 YEARS** ON THE OTHER COMPONENTS

(NEW)
